

# Goals of the Biopesticide Registration Workshop

---

Jerry Baron  
Assistant Director,  
IR-4 Project

# Goals for this week

---

Question: Why we are here and what are we trying to accomplish?

## IR-4's New Technology Strategy

---

Designed to ensure that a selection of existing and new pest control products will be available for **minor crops** in the future.

# Facilitate Learning and Discovery

---

- Need for this was identified by many
- The Pro's are here to share their knowledge
- Intangibles and networking
- Overwhelming response and participation, more than just NAFTA

# Review of Agenda - Today

---

- Overview of Sponsors Programs
- General discussion on Joint Review
- Biopesticide Submission Process
- GLP's
- Common pitfalls in submissions
- Reception

# Review of Agenda - Tomorrow

---

- Role of Consultants in Registration
- Microbials and Pheromones; Product Characterization, Health, Environmental and Efficacy Assessment, and Decision Making
- Potential Clients and Collaborators

# Review of Agenda - Thursday

---

- Biochemicals; Chemical, Health, Environmental and Efficacy Assessment and Decision Making.
- Maintenance of Registrations
- Closing Remarks

# Acknowledgements

---

- Co-sponsor representatives
  - Brian Steinwand, EPA
  - Lisa Lange, PMRA
  - David Supkoff, CA-DPR
  - Jerry Baron, IR-4

# Other Acknowledgements

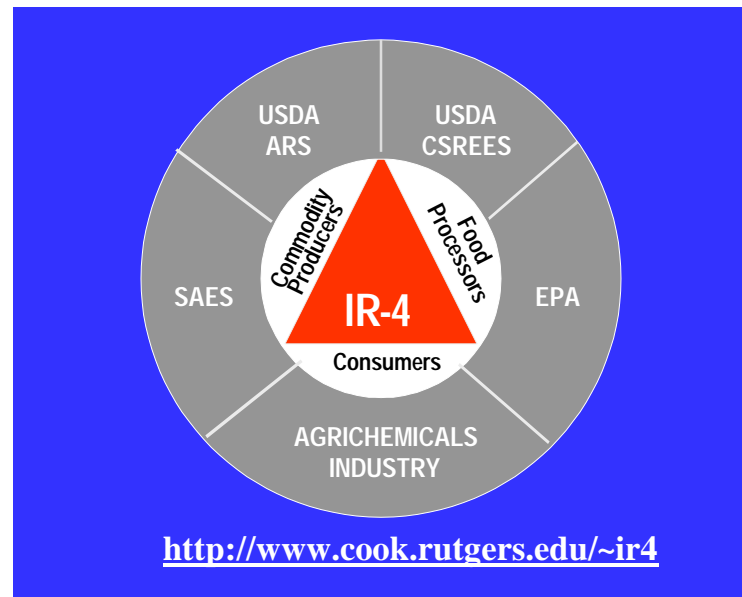

---

- Amy Roberts and TSG
- Jennifer Ryder-Fox and BPIA
- Bob Holm, Michael Braverman, Bill Biehn, Pat Sarica and others from IR-4
- Janet Andersen, et al from EPA
- You!

# Thank you!

---

## THE MINOR USE PROGRAM

Funding provided by USDA (CSREES and ARS) and the SAES
